#### 1500 MILES IS A LONG WAY HOME

### PROOF FENCE

## FREE FILM AND LUNCH @ Oasis

The year is 1931. Three Aboriginal girls are separated from their mothers and transported to a distant training school, where they are prepared for assimilation into white society by a racist government policy. We follow Gracie, Daisy, and Molly as they escape and make a tenacious journey homewards. The movie illuminates a shameful chapter of Australian history while conveying our universal need for a true and proper home.
