

Upcoming Free Workshop

AI at Work: Tackling the work, health and safety ethics of artificial intelligence

Join us for a 1 hour workshop jointly presented by the SA Centre for Economic Studies and the Australian Institute for Machine Learning of the University of Adelaide, and the Australian Industrial Transformation Institute, Flinders University, in association with the NSW Centre for Work Health and Safety.

This workshop will explore the challenge of designing for ethical Artificial Intelligence in the workplace. It will identify potential ethical risks arising and discuss how such risks could best be managed. We will work with the CSIRO Data 61 Ethics Principles and a simple AI workflow tool, the "AI Canvas" developed by Ajay Agrawal, Joshua Gans, and Avi Goldfarb in their 2018 book on AI, Prediction Machines.

Presenters:

Dr Zygmunt Szpak, Australian Institute for Machine Learning, University of Adelaide

Dr Catherine Howell, University of Adelaide

Dr Genevieve Knight, SA Centre for Economic Studies, University of Adelaide

Dr Andreas Cebulla, Australian Industrial Transformation Institute, Flinders University

Livestream start times:

Tuesday, 25th August 2020 NSW/ACT/VIC/TAS/QLD: 5.30pm SA/NT: 5.00pm WA: 3.30pm Please register indicating Tuesday, 25th August 2020: saces@adelaide.edu.au	Thursday, 27th August 2020 NSW/ACT/VIC/TAS/QLD: 1.00pm SA/NT: 12.30pm WA: 11.00am Please register indicating Thursday, 27th August 2020: saces@adelaide.edu.au
---	---

You can participate in the workshop from home, the office or anywhere in the world. You just need to connect to presentations using a PC, laptop or tablet via the internet.
